

# Nectar Datasheet

Date: 7-18-18  
 Observer: Sekh A  
 Recorder: Sydney  
 Team lead: Sekh A

- bergamot not even flowering, ~1.5 feet tall  
 flowering = done @ other sites  
 - high density red clover  
 - almost no LSG

Site:           
 Transect:           
 Round:         

cre1  
 tcre1a  
 2  
 100m

med density = native forbs  
 short, suppressed by Queen anns & daisy fleabane, red clover  
 - short berg + yellow cone

dominant But BSH  
 fleabane  
 Queen Annes

☐ Survey completed. No milkweed or flowering plants detected
